

Consultation Questionnaire

Positive Approach[®] to Care Organization Designation

We are excited that you are interested in pursuing Positive Approach[®] to Care (PAC) Organizational Designation status! This questionnaire is for organizations that are interested in speaking with us about the possibility of becoming a PAC designated community, but the organization is not quite ready for the application yet. This could be because you have additional questions about the requirements, process, or benefits of designation, or because your organization would like assistance in working on requirements for application. In any case, we're glad you've contacted us and you will hear from a member of our team soon!
