"You can't make positive choices for the rest of your life without an environment that makes those choices easy, natural, and enjoyable." Deepak Chopra

I'm not positive that my colleague, Debi Tyler, was thinking of this quote when she created the Positive Approach to Care (PAC) Certification Guide Tool but it certainly fits.

So many choices, so many options; Maybe you're already aware of and value the mission of PAC, maybe you've watched every Teepa Snow video that you've been able to get your hands on, maybe you've purchased every product available in the product store on our website, but you are still hungry for more knowledge, and maybe a few skills.

You're thinking of taking the next step, obtaining a PAC Certification. But which “Cert” is right for you? Do you work at an organization that would benefit from having a private event for your team? Are you aware of care issues that might be improved with better dementia care skills? These questions and more are part of this great new tool which allows you to identify your needs and what Certification would best fill them.

Check it out here If you have additional questions about what Certification is best for you connect with us via email.
