

Lauren With a Side of Lewy

*by Lauren U,
PAC Core Team Member*

The conference, oh the conference. There were over 700 attendees! So many people who want to learn about dementia and dementia care. This makes me happy. I spent my time doing all sorts of things but mainly I answered a lot of questions and my PAC family told a lot of Lauren stories. It's all good though sometimes embarrassing. I met many people for the first time. I was glad to see those I've seen before. Lots of folks know me as Teepa's friend, some think I'm family, I think I'm kind of both. The zoom feature was mostly okay with a few glitches. It mostly worked out. It enabled people from all over the globe to attend, most could not have attended without the virtual world. That was nice. I had a good and exhausting experience. Usually I eat way too much candy when I'm with PAC in person. Now my chocolate allotment has been disturbed. I am far below my chocolate needs; I probably have a chocolate deficiency. Thank you to everyone who attended. A huge thank you to PAC and all who worked so hard to pull this off! The conference, oh the conference.
