

Meal Lifter

ODJ Sponsor

Meal Lifter eating aid, specifically created for senior living communities, nursing homes, and home healthcare providers.

Originally created to assist individuals suffering from Parkinsons disease, it has also proven beneficial to Alzheimers and memory care patients, and individuals who no longer have the physical ability or coordination necessary to comfortably feed themselves. The device increases visibility of the dinner plate making eating more enjoyable, while providing greater ease and dignity.

The Meal Lifter is available through **Direct Supply** and can also be viewed on our **website**, **Instagram**, and **Facebook**.

This is a paid advertisement, and PAC does not promote or endorse any product not produced by PAC.
